MEMORANDUM

ATTENTION Senate **DATE** June 21, 2023
FROM Jeff Derksen,
Chair of Senate Graduate Studies
Committee (SGSC)
RE: Program Changes

For information:

Acting under delegated authority at its meeting of June 13, 2023, SGSC approved the following curriculum item, effective **SPRING 2024**:

Beedie School of Business

Program Change: Management Graduate Diploma

Faculty of Applied Science

School of Engineering Science

Program Change: Engineering Science MSc

Faculty of Science

Department of Chemistry

Program Change: Chemistry MSc

Department of Earth Sciences

Program Change: Earth Sciences PhD

Department of Physics

Program Change: Physics PhD

Segal Graduate School

Office of the Associate Dean
500 Granville Street
Vancouver, BC V6C 1W6

TEL 778.782.9255
FAX 778.782.5122

Memo to SGSC

To: Senate Graduate Studies Committee
From: Andrew Gemino, Associate Dean, Graduate Programs
Re: Removal of reference to Master in Management in the Graduate Diploma of Management calendar & Change to Graduate Course Change Form
Date: April 14th 2023

The following curriculum revisions have been approved by the Beedie School of Business and are forwarded to the Senate Graduate Studies Committee for approval.

Please include them on the next SGSC agenda.

- **Removal of wording referencing the Master in Management program in the Graduate Diploma of Management academic calendar**
- ~~Graduate Course Change Form for BUS 888~~

Thank you for your attention herein. Should you have any questions or concerns, please do not hesitate to contact me.

Andrew Gemino
Associate Dean, Graduate Programs, Beedie School of Business

Calendar Entry Change for Management Graduate Diploma

<p>Summary of change:</p> <p>Removing references to master in management (MiM) program in diploma calendar entry.</p>
<p>Rationale for change:</p> <p>MiM is no longer moving forward for approval at the Ministry.</p>
<p>Effective term and year:</p> <p>Spring 2024</p>
<p>Will this change impact current students? If yes, what is the plan for current students?</p> <p>No</p>

FROM	TO
<p>GRADUATE DIPLOMA</p> <p>The graduate diploma in management will feature a core of management courses that combine people skills with digital literacy and performance enablers all grounded in the context of management. This program is affiliated with the master in management (MiM) program*.</p> <p>*The master in management (MiM) program has been approved by SFU's Senate and Board of Governors, and is currently pending approval from the Ministry of Advanced Education. For more information, please see https://beedie.sfu.ca/programs/graduate.</p> <p>[...]</p>	<p>GRADUATE DIPLOMA</p> <p>The graduate diploma in management will feature a core of management courses that combine people skills with digital literacy and performance enablers all grounded in the context of management.</p> <p>For more information, please see https://beedie.sfu.ca/programs/graduate.</p> <p>[...]</p>

MEMORANDUM

Attention Dr. Jeff Derksen
Dean, Graduate Studies

Date: April 24, 2023

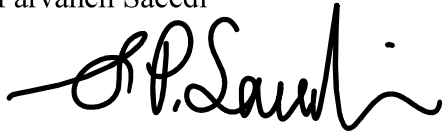

From Dr. Parvaneh Saeed, psaeedi@sfu.ca
Faculty of Applied Science, Graduate Studies Committee

Re: MASc program change

The faculty of Applied Sciences Graduate Studies Committee would like to request to change the program description of the Master of Applied Science (MASc) to exclude ENSC 803 (Writing for Publication) towards to the program requirement.

The rationale for the change to exclude ENSC 803 (Writing for Publication) is that this course is non-technical and should not be counted towards the degree requirement. This change will also align the MASc program with the Ph.D. program and maintain consistency on the calendar. This is anticipated to appear in the MASc program calendar for Spring 2024.

Regards,
Parvaneh Saeedi

RE

MASc Program Calendar Change Request

DATE

April 11, 2023

This memo is to accompany the program calendar change request for the Master of Applied Science (MASc).

This is anticipated to appear in the MASc program calendar for Spring 2024.

The rationale for the change is to exclude ENSC 803 (Writing for Publication) to be used towards to the program requirement since it is a non-technical course. This change will also align the program requirements of MASc with the PhD program and maintain the consistency on the calendar.

X

Dr. Mirza Faisal Beg
GPC Chair, School of Engineering Science

Calendar Entry Change for ENSC Master of Applied Science (MASc)

Summary of change: Exclude ENSC 803 credits to be used towards to the program requirement
Rationale for change: ENSC 803 is a non-technical course which currently cannot be used towards to ENSC Doctor of Philosophy (PhD) requirement. This change is to align the program requirements of MASc with the PhD program.
Effective term and year: Spring 2024
Will this change impact current students? If yes, what is the plan for current students? No

FROM	TO
<p>Program Requirements</p> <p>This program consists of course work and a thesis for a minimum of 30 units. The courses will normally be selected in consultation with the supervisor. ENSC 820 may not be used towards the MASc course requirements. Additional courses may be required to correct deficiencies in the student's background. If the subject matter of a required course has been previously completed for credit, the course may not be completed again for credit.</p> <p>Students must complete</p> <p>a minimum of six units of ENSC graduate courses (excluding ENSC 704, ENSC 803, ENSC 820, ENSC 891, ENSC 892, ENSC 896, ENSC 897, ENSC 898, ENSC 899)</p> <p>a minimum of six units of additional graduate courses (at most three units may be directed studies or Industrial Internship)</p> <p>and a thesis</p> <p><u>ENSC 898 - MASc Thesis (18)</u></p>	<p>Program Requirements</p> <p>This program consists of course work and a thesis for a minimum of 30 units. ATTENTION: Senate Graduate Studies Committee

FROM: Vance Williams, Associate Dean Graduate Studies,
Faculty of Science

RE: Proposed ~~Course Additions and~~ Program Changes for Spring
2024, Faculty of Science

DATE: May 10, 2023

Dear SGSC,

The following curriculum changes have been approved by the Faculty of Science and are being submitted to the Senate Graduate Studies committee for approval.

~~The following new courses are being proposed:~~

~~**CHEM 803 Lectures in Modern Chemistry Research**~~

~~**BISC 805 Teaching and Learning in Undergraduate Sciences**~~

The following program changes are being proposed:

CHEM MSc program

EASC PhD program

PHYS PhD program

Enclosed are the documents in support of these changes.

Sincerely,

Vance Williams
Associate Dean Graduate Studies, Faculty of Science

| RE: Program Change – CHEM MSc

| DATE: April 11th, 2023

Dear FGSC,

Please find attached, the program change form for CHEM MSc, for approval by the Faculty of Science Graduate Studies Committee.

The rationale for the program change: add a new seminar course, to the current chemistry graduate curriculum as part of the program requirement.

This will be a 0-credit course so there would be no change on the unit totals. This course is targeting only Chemistry MSc students and not open to students outside the chemistry department.

All the resources required to offer this course will come from the Chemistry Department. The proposal was approved at our recent departmental meeting on Thursday, March 9th, 2023.

Please contact me if you have any questions, or if you require any changes.

Sincerely,

Tim Storr
Chemistry Graduate Program Chair

Calendar Entry Change for Chemistry MSc

Summary of change: To add a new course on the program requirement.
Rationale for change: To formalize a requirement that first year MSc students attend weekly department seminars to learn about the latest research and develop critical thinking skills.
Effective term and year: Spring 2024
Will this change impact current students? If yes, what is the plan for current students? This will impact incoming MSc students who are starting in Fall 2023 onwards.

RE Simplification of requirements for MSc-to-PhD transfer in EASC

DATE May 8, 2023

TIME 12:08 PM

Please find attached a request for changes to the requirements for MSc-to-PhD program transfer in EASC. These changes have been approved by the department and are intended to reduce obstacles to transfer from MSc to PhD programs, to clarify requirements for students and to adopt wording consistent with university requirements.

A handwritten signature in black ink, appearing to read "Gwenn Flowers".

Dr. Gwenn E. Flowers
Professor & Graduate Program Chair

Calendar Entry Change for EASC PhD

<p>Summary of change:</p> <p>Simplification of requirements for transfer from MSc to PhD program in EASC</p>
<p>Rationale for change:</p> <p>To reduce obstacles to transfer from MSc to PhD programs, to clarify requirements and to adopt wording consistent with university requirements</p>
<p>Effective term and year: Spring 2024</p>
<p>Will this change impact current students? If yes, what is the plan for current students?</p> <p>Yes. Program changes will make it easier for current students to transfer from the MSc to PhD Program, as intended.</p>

FROM	TO
<p>[...] Transfer from MSc to PhD Program</p> <p>Students who have excelled in their academic programs and who are judged to have outstanding research potential may apply for transfer from the MSc to the PhD program. The following are required:</p> <ul style="list-style-type: none"> • At least three terms, and not more than six terms, in the earth sciences MSc program; • A cumulative grade point average of at least 3.67 in the MSc program; • A record of strong performance as demonstrated in the graduate progress report; • Successful completion of the MSc Thesis Proposal; • Evidence of research potential in the form of a scholarly work or portfolio of scholarly works (see Department of Earth Sciences website); • A doctoral thesis proposal (see PhD program requirements); • Approval of the student's supervisory committee in the form of a letter of 	<p>[...] Transfer from MSc to PhD Program</p> <p>Students who have excelled in their academic programs and who are judged to have outstanding research potential may apply for transfer from the MSc to the PhD program. The following are required:</p> <ul style="list-style-type: none"> • Completion of at least 75% of the course work units required for the MSc program • A cumulative grade point average of at least 3.5 in the MSc program • Successful completion of EASC 810 (MSc Thesis Proposal) • Endorsement of the student's supervisory committee in the form of a letter co-signed by all members. The letter should state the rationale for transfer, provide evidence of the student's^S doctoral research potential and address any perceived shortcomings in the application. • Approval of the departmental graduate program committee

<p>recommendation from the supervisor and written approval of the committee members. The letter should address any perceived shortcomings in the application, including for example, a marginal CGPA or a limited record of scholarly work;</p> <ul style="list-style-type: none">• Approval of the departmental graduate program committee. <p>[...]</p>	<p>An application for transfer can only be submitted after the second term and before the seventh term in the MSc program.</p> <p>[...]</p>

FROM Nancy Forde, Graduate Program Chair, Physics

RE Minor Program Change: Physics PhD

DATE May 8, 2023

The following program change has been approved by the Department of Physics and is forwarded to the Faculty for approval. This curriculum item should be effective for **Spring 2024**.

Minor Program Change

Physics PhD: unit change from 30 to 39

Please see the rationale for this change on the accompanying program change form.

Dr. Nancy Forde
Graduate Program Chair

Calendar Entry Change for Physics Doctor of Philosophy

<p>Summary of change: Reducing the number of required elective units from 12 to 9; updating the total number of units for the program.</p>
<p>Rationale for change:</p> <ol style="list-style-type: none"> 1. Correcting the total number of units for the program. The number of units for the PhD thesis was changed in 2019 but the total number of units for the program was not updated. 2. Changing the required number of units for course work to be in line with other Physics PhD programs across Canada. Currently, SFU Physics PhD program requires students to complete 24 course units, while the nation's average is between 15 and 21 units. This change will make our PhD program more competitive and attractive to students, as well as help to improve completion time.
<p>Effective term and year: Spring 2024</p>
<p>Will this change impact current students? If yes, what is the plan for current students? Only if they have not yet completed the currently required 12 elective units; in this case, they will only need to complete 9 elective units.</p>

FROM	TO
<p>[...]</p> <h3>Program Requirements</h3> <p>This program consists of course work and a thesis for a minimum of 30 units.
