<b>Rationale for change:</b> The School has approved a change to the Legal Studies Certificate requirements to one of either CRIM 335 - Human Rights and Civil Liberties or CRIM 338 - Philosophy of Law, plus five additional courses from the approved list of options.  The reason for this change is two-fold: 1. The Legal Studies Certificate currently has three required courses (CRIM 332 - Sociology of Law, CRIM 335 - Human Rights and Civil Liberties and CRIM 338 - Philosophy of Law). These courses are no longer offered on a regular basis, making it difficult for students to gain access to complete the certificate in a timely manner. This change will give students more flexibility to complete this certificate. 2. This change will bring the Legal Studies Certificate's requirements more in line with the other certificates in CRIM by having one required course and the remaining courses completed from a list of options.
<b>Effective term and year:</b> Spring 2025

Applicants must meet university undergraduate admission deadlines as shown in this Calendar. Application forms and official documents must be submitted to Student Services. In addition to applying for University admission, students apply in writing to the School of Criminology's advisor for certificate program declaration.

To continue in the program, students must maintain a 2.25 cumulative grade point average (CGPA)\*. Students whose CGPA falls below 2.25 cannot enroll in any upper division CRIM courses.

\*transfer students who meet the criminology program declaration requirements upon admission to SFU may use their admission CGPA for declaration purposes

REPLACE WITH: EDUC454Q: Adding EDUC-454Q offers the required Q course for students wanting to complete the B.Ed. as a second degree. This course is attractive to Secondary student teachers with a humanities as well as a science background.</li> <li>2. ADD EDUC 410 &amp; EDUC 382 as an option for either secondary or elementary tracks: Adding EDUC-410 (Identities/Teachers of French) and EDUC-382 (Diversity in Education: Theories, Policies &amp; Practices) as options for the Minor in French Education will allow students a choice that reflects their preparation needs as future teachers in K-12 French programs in BC schools.</li> <li>3. REMOVE THE LANGUAGE “plus: EDUC380”: This language is unnecessary given that the “*” language maintained in this proposal. EDUC 380 is designed to support students with lower levels of proficiency in French language and advisors will suggest students meeting that profile take EDUC380 as part of the “*”.</li> <li>4. Because at times, a French language version of any specific elementary or secondary course might not be offered, we have clarified the language to include “...unless unavailable in French” to the headings of secondary and elementary tracks.</li> </ol>
