FROM	Alexander Karaivanov, Graduate Chair, Dept. of Economics
RE	Curriculum changes
DATE	April 11, 2019

At its meeting on April 9, 2019, the Department of Economics approved the following graduate program changes:

- ~~1. Calendar changes to the Economics MA program (deletion of the Extended Essays — Option and other changes). Complete text edits, rationale and revised calendar entry are attached.~~
2. Deletion of ECON 998 MA Essays. Course deletion form and rationale are attached.

Please place this proposal on the agenda of the next meeting of the Faculty of Arts and Social Sciences Graduate Studies Curriculum Committee. Thank you in advance.

Sincerely,

Alexander Karaivanov
Graduate Chair
Department of Economics

Graduate Course Deletion

A course can be deleted if it has not been offered in the previous seven years or if there is no chance of it being offered again. Once a course has been deleted for a minimum of 10 years, the course subject and number can be re-used.

Course Subject/Number ECON 998	Units 6
Course Title MA Essays	
Reason for Deletion The MA Extended Essays option has not been used for a long time (more than 10 years). Deleting this course and complementary changes to the Economics MA calendar entry would streamline the MA program completion options (an external review recommendation) and bring the calendar up to date with current department practice.	
Effective Term and Year: Spring 2020	

Before Submission to SGSC check the following:

Is this course required for degree completion?

YES

NO

Do any program calendar entries need to be changed as a result of this deletion?

YES

NO

Does the departmental website need to be updated?

YES

NO

Additional information for any YES responses:

A program calendar change form is attached. The department website will be updated.

REMINDER: All course deletions must be identified on a cover memo and confirmed as approved when submitted to FGSC and SGSC.

RE Calendar entry changes

CC:

DATE May 16, 2019 | 12pm

Dear Sean,

Please receive the following items for consideration and approval:

1. ~~A revised online calendar entry for the French Graduate Program. The revisions follow new recommended format guidelines and only include minor changes:

 - a. ~~minor credit modification for FREN 896 (see item 2 below);~~
 - b. ~~Under Thesis and Thesis Proposal: Elimination of redundant references to CGRs;~~
 - c. ~~Under Extended Essay: Specification of option in case the minimum B grade is not achieved and whether extended essays are submitted to Library.~~~~

2. A course change form for FREN 896 "Thesis Project". This course is graded on an IP/CO basis, which does not affect the CGPA, and its reduction from 3 to 0 credit allows the core program to count for 50% of total credits and realigns both MA options (Thesis and Extended Essay) to 30 total credits each.

Change for PHIL 898

Attached please find ~~edits to the calendar entry for Philosophy MA, a course change form for PHIL 899 and course change forms for PHIL 898 and 899. There are no major revisions to the calendar entry; these are simply editorial updates prompted by Graduate and Postdoctoral Studies as part of the Graduate Degree project. The name changes make the course easier to identify by students as the appropriate one for the professional paper project option. The updates were approved by the Philosophy Department Committee of the Whole in discussion and live vote at our retreat in April 2018. Please approve these items and include them in the next SGSC meeting.~~

BUS 990 New Course Description

Students will be exposed to the broad world of academia, from presenting and providing constructive feedback on papers, to conferences and journal publishing and refereeing, while being exposed to an introduction to a range of research techniques and data analysis. The cornerstone of the course, and the primary vehicle for experiential learning, is that each student will write an original research project. The project that will be graded on a satisfactory/unsatisfactory basis. Students who receive Satisfactory will present it in an open research presentation. Questions and answers emerging in this context should assist the student to develop their research and to begin to chart their course in academia.
