<p><b>Rationale for change:</b> Currently the Biomedical Physiology Major requires a minimum of 45 upper division units. The SFU minimum for a bachelor's degree is 44 upper division units.</p> <p>With the change of BPK 408w to 4 units our BIF majors will attain the 44-unit SFU upper division minimum with one less upper division course than we currently require.</p> <p>BPK proposes to support biomedical physiology major degree completion using the 44 unit minimum through the following calendar changes. A free upper division elective will be removed, this will not impact the BPK course requirements for the major program.</p>

<b>Name of Program or Name of Faculty</b> Biomedical Physiology and Kinesiology
<b>Rationale for change:</b> The Biomedical Physiology Major is being changed to a minimum upper division (UD) requirement of 44 units from 45 units. SFU Honours programs have a minimum requirement of 60 UD units. Biomedical Physiology Majors transferring into the Biomedical Physiology Honours program will be required to do the BPK Honours courses (15 units), in some cases they will also require additional UD units to bring their total over the minimum of 60 UD units. Students who select a 4 credit MBB or BISC course from List A will attain 60 units without an additional course requirement. The proposed statement for inclusion will highlight for students that they <u>may</u> require additional upper division units to complete their Honours program. This statement is like those included in other Faculty of Science Honours Programs.
