PAPER 4D

The History Department appointed a visiting professor for the summer semester whose specialty was in an area for which the department had not included courses in the 1966-67 Calendar. Unfortunately, the course finally settled upon was not submitted to Senate for approval, nor has it been submitted to the Faculty of Arts. In discussion with W. Williams, the acting Head of History, it was agreed that Senate approval should be sought now, so that the Registrar can grant credit to those students who enrolled in the course this summer. This approval could be for this one semester until the Faculty of Arts has had an opportunity to review the course.
