

SM 3/4/67

*Graduation Diplomas*

Paper 3A

TO: Senate

FROM: Registrar

23 March, 1967

Subject: Graduation Diplomas

5-A-5

At a previous meeting of Senate two designs were submitted. Senate referred the matter back to the Registrar and the University Committee on Works of Art. The work of the Committee on Works of Art relating to graphics and other aspects of University publications has been taken over by the University Graphics and Design Committee.

The Graphics and Design Committee met on a number of occasions and the following is its report:

"Members complimented W. Griba (of the Library's Audio-Visual Centre) on the designs, all using optima type. It was agreed to select one design which would be recommended to Senate as the Committee's choice and to show Senate the other designs.

The chosen design would be in horizontal format. The University crest would be displayed in the form of a shaded pattern over which the type would be printed. The University seal would be embossed and signatures in red ink would be written over the seal. The type of the sentence containing the date of the conferring of the degree would be arranged so that a change in date would not necessitate a change in typography. The folder to contain the certificate would be in a shade of red to be chosen by P. Robertson and W. Griba and grey ribbon will be used to hold the certificate within the folder."

The design recommended, along with 18 others considered, will be on display in the Senate and Board Room for the week prior to the Senate Meeting on April 3.

D.P. Robertson
