

EDUCATION 422 LEARNING DISABILITIES  
SUMMER 1978 Regular Session and Intersession.  
INSTRUCTOR: Dr. Leone Prock.

The function of Educ. 422 is to provide a wide-based introduction to current research, theory, and practice in the diagnosis and remediation of learning disabilities. The course is not a clinical experience. Rather, it is designed to enhance a regular classroom teacher's understanding of learning disabilities, and to provide that teacher with knowledge to assist in the identification and non-clinical treatment of learning disabilities.
