MEMORANDUM

To... Senate

From... Senate Committee on Continuing Studies

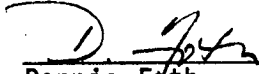

Subject... Statistical Reports

Date... 14 October 1980

For the information of Senate the following reports, covering the period May 1, 1979 to April 30, 1980 are attached:

1. Report on Extension Credit (Evening, Intersession, Summer Session and Off-Campus) Courses
2. Report on Certificate and Diploma Programs
3. Report on Credit-Free Activities
 - (i) by Academic Departments
 - (ii) by Administrative and Academic Service Departments

The purpose of these reports is to provide basic statistical data on all Department and Faculty courses offered beyond the campus and the "regular" semester periods, and on all (or most) credit-free activities offered by university departments. The Committee notes that these reports do not constitute a report on the Office of Continuing Studies.

REPORT ON UNDERGRADUATE
EXTENSION CREDIT COURSES
May 1, 1979 - April 30, 1980

This report describes the numbers of undergraduate extension credit course offerings and associated course enrollee figures of the Departments/Faculties of the University for the period May 1, 1979 through April 30, 1980. By way of definition, extension credit courses include those that are offered on-campus after 4:30 p.m. of the regular semesters or during the days or evenings of Intersession (May-June) or Summer Session (July-August), those that are offered in downtown Vancouver (day or evening), those that are offered off-campus in a classroom (e.g., at Kelowna, Prince George), and those that are available throughout the province via print or print and audio tapes - i.e., directed independent study (correspondence) courses.

A summary of the numbers of extension credit course offerings and the numbers of course enrollees for each type of extension course is presented in Table 1. A total of 17,105 course enrollees was recorded in 582 extension credit course offerings, about 6% more enrollees than for the same period of 1978-79. The number of enrollees in these courses represented about 25% of the total number of undergraduate enrollees at the University for the 1979-80 period (67,521).

I On-Campus and Downtown Undergraduate Extension Credit Programs

A summary of the number of courses and course enrollees by Faculty for each of the three semesters of 1979-80 and for 1978-79 is presented in Table 2. The overall 4.2% increase in number of enrollees for 1979-80 as compared with 1978-79 is somewhat smaller than that experienced in preceding years

(generally 7% or greater). This lower rate of increase may be due to the aftereffects of the A.U.C.E. strike during the Spring of 1979, a factor which appears to have affected the number of regular semester day course enrollees as well (decrease of 0.6% - 50,416 vs. 50,734).

The increase in course enrollees that did occur during the reporting period appears to be largely due to an increased number of evening and summer offerings by Departments in the Faculty of Arts and the start of the SFU/ Downtown Program in January, 1980.

II Off-Campus Undergraduate Credit Programs

A summary of the number of off-campus courses and course enrollees by program is presented in Table 3. An overall decrease of about 6% in course enrollees occurred. The decrease in enrollees in the Professional Development Program of the Faculty of Education appears to have been due to the reduction of the number of external sites from ten to seven. This decrease was partially offset by the Faculty of Education offering the initial courses in the Extended Studies Diploma Program - Education in Vernon and Kamloops during 1979-3 and 1980-1. The Outward Bound Program - Faculty of Education was not offered during the Summer of 1979.

III Directed Independent Study Courses

Twenty-one different courses were available in this instructional mode during 1979-80, six more than during 1978-79. Most of the courses were offered during two or three of the three semesters of the reporting period (courses are sometimes not available due to being "under revision" or be-

cause the course author/supervisor is on leave). Eleven courses were offered during the Summer Semester 1979, 16 during the Fall Semester, and 19 during the Spring Semester, 1980. Course enrollees number 285, 372, and 483, respectively. Overall, the number of course enrollees was up 61.5% relative to the same period of 1978-79.

IV Special Audit Students

The number of people attending classes, day or evening, on- or off-campus, as special audit students was 179 for 1979-80, an increase of 21 (13%) over the same period of 1978-79.
