MEMORANDUM File: 7-03-08

To Faculty Graduate Studies
Committee, Faculty of Science
Subject Graduate Course Offerings

From Dr. R. C. Brooke, Chairman, DGSC,
Dept. of Biological Sciences
Date 78-08-21

At a recent meeting the Department approved that certain courses be deleted from the graduate program. These courses have not been given for a number of years and are no longer important to our graduate program.

- BISC. 800 Marine Biology (not offered since inclusion in 1966)
- BISC. 801 Cell Biology (not offered since 1966)
- BISC. 812 Fungal Physiology and Development (not offered since 1971)
- BISC. 813 Biochemistry of the Algae (not offered since 1971)
- BISC. 831 Photochemistry and Biology (not offered since 1967)

This will reduce the Department's graduate course listing from 40 to 35 courses (excluding the Special Topics courses).

Would you please approve the deletion of these courses and forward to Senate for final approval.

R. C. Brooke
