FROM Alexander Karaivanov, Graduate Chair, Dept. of Economics

RE Curriculum changes

DATE January 7, 2019

At its meeting of November 14, 2018, the Department of Economics approved the following program changes:

- ~~1. Delete the "Economics and Business Administrations" PhD specialization. Detailed text edits, rationale and revised calendar entry are attached.~~
2. Delete the program course requirement ECON 988 Second Field Comprehensive Examination. Course deletion form, rationale and revised calendar entry are attached.

Please place this proposal on the agenda of the next meeting of the Faculty of Arts and Social Sciences Graduate Studies Curriculum Committee

Sincerely,

Alexander Karaivanov
Graduate Chair
Department of Economics

Graduate Course Deletion

A course can be deleted if it has not been offered in the previous seven years or if there is no chance of it being offered again. Once a course has been deleted for a minimum of 10 years, the course subject and number can be re-used.

| | | | |
|--------------------------|---|-------|---|
| Course Subject/Number | ECON 988 | Units | 0 |
| Course Title | Second Field Comprehensive Examination | | |
| Reason for Deletion | Consistent with one of the recommendations of the department's external review, this course deletion is intended to streamline the PhD program requirements and help our students begin active research faster. Complementary updates in the format or deadlines for ECON 987 (Field comprehensive examination), which do not require a calendar change, will be implemented at the department level. | | |
| Effective Term and Year: | Fall 2019 | | |

Before Submission to SGSC check the following:

Is this course required for degree completion?

YES

NO

Do any program calendar entries need to be changed as a result of this deletion?

YES

NO

Does the departmental website need to be updated?

YES

NO

Additional information for any YES responses:

The course is required but waivable with A- or higher in two electives. A program calendar change form is attached. The website will be updated.

REMINDER: All course deletions must be identified on a cover memo and confirmed as approved when submitted to FGSC and SGSC.

Cover Memo to FSGC

To: Faculty of Science Graduate Studies Committee
From: Tom Claydon, Graduate Program Committee Chair BPK
Re: new TRAIN graduate specialization
Date: June 27th, 2018

The following new Translational and Integrative (TRAIN) graduate specialization with associated new courses and course deletions have been approved by the Department of Biomedical Physiology and Kinesiology and are forwarded to the Senate Graduate Studies Committee for approval. These curriculum items should be effective for Fall 2019. Please include them on the next SGSC agenda.

Department of Biomedical Physiology and Kinesiology

~~New calendar entry to create the TRAIN specialization~~

~~New courses: NEUR 800 (3), NEUR 801 (3), NEUR 802 (0)~~

Course deletions: BPK 861 (3), BPK 865 (3), BPK 825 (3)

The proposal includes the generation of a new specialization (TRAIN), which is similar in structure to the current existing Interdisciplinary Oncology Graduate Specialization (IOGS). The new specialization will be taught by instructors from multiple departments and faculties at SFU and offers courses to graduate students in different units. It is expected that the specialization will be attractive to students working in multiple areas within the neuroscience field and will provide a rich and stimulating graduate education experience. Interested students will be admitted to a home department and will then register in the specialization, which will be overseen by a steering committee. Listing the specialization in the calendar as a separate entry, outside of departmental entries, allows the description to appear (and be managed) in a single place in the calendar. The attached proposed new calendar entry describing the TRAIN specialization and new courses have been approved by the Department of Biological Sciences and the Department of Psychology, both of whom see enrollment interest from graduate students in their own programs.

Graduate Course Deletion

A course can be deleted if it has not been offered in the previous seven years or if there is no chance of it being offered again. Once a course has been deleted for a minimum of 10 years, the course subject and number can be re-used.

| | | | |
|--------------------------|--|-------|---|
| Course Subject/Number | BPK 825 | Units | 3 |
| Course Title | Behavioural Neuroscience | | |
| Reason for Deletion | Course has not been taught in over 10 years. In addition, a new neuroscience course (NEUR 801) that is part of the proposed Translational and Integrative Neuroscience (TRAIN) graduate specialization will be used instead. | | |
| Effective Term and Year: | Fall 2019 | | |

Before Submission to SGSC check the following:

Is this course required for degree completion?

YES

NO

Do any program calendar entries need to be changed as a result of this deletion?

YES

NO

Does the departmental website need to be updated?

YES

NO

Additional information for any YES responses:

Program calendar entry changes: just to remove BPK 825 from calendar.

REMINDER: All course deletions must be identified on a cover memo and confirmed as approved when submitted to FGSC and SGSC.

MEMORANDUM

ATTENTION Senate Graduate Studies Committee **DATE** February 10, 2019
FROM Michael Silverman, Associate Dean of Research and Graduate Studies **PAGES** 4
RE: Unit number changes for the PhD Thesis course, PHYS 899 - Physics

The following calendar changes have been approved by the Faculty of Science and are forwarded to the Senate Graduate Studies Committee for approval. These curriculum items should be effective for Fall 2019. Please include them on the next SGSC agenda.

Department of Physics

The change is to the number of units associated with the PhD thesis course, PHYS 899, from 6 units to ¹⁸~~9~~ units. Please see the next page for an explanation regarding the number of units for the M.Sc thesis course, PHYS 898 vis-à-vis PHYS 899. This change is purely cosmetic and has no implications for the students currently enrolled in the graduate program in Physics.

Dear Michael,

I am writing to inform you of a course change form and program change form that I am submitting to you. The substance of the change is to change the units associated with the Ph.D Thesis course, PHYS 899, from 6 units to ~~18~~ units. ~~The rationale for this change is that several years ago the M.Sc Thesis course, PHYS 898, was changed to be an 18 unit course, and given that the Ph.D Thesis requires considerably more work than an M.Sc Thesis, the department of Physics considers it appropriate that the units allocated to the course be larger than that of the M.Sc Thesis.~~ This change is purely cosmetic and has no implications for students currently enrolled in the graduate program in Physics. I would appreciate it if you could bring this matter to the committee of Science Graduate Chairs for approval.

Yours sincerely,

A handwritten signature in black ink that reads 'MP Kennett'.
