ARC. 439-3 Early Man and Environments in North America

ARC. 440-3 Advanced Zooarchaeology

ARC. 475-3 Regional Studies in Archaeology: North American

Arctic

Rationale: All three courses have experienced low enrollments.

ARC. 439 and 475 were taught by a faculty member who is no longer in the Department of Archaeology. The content of ARC. 440 has been added to ARC. 340, which has been changed from a three credit course

to a five credit course.

P. 150 Change of number and division.

FROM: ARC. 371-5 Archaeological Theory

TO: ARC. 471-5 Archaeological Theory

RATIONALE: The department has received numerous complaints from students that this course is "too difficult"

for the 300 Division, and that because of its number, they have taken it too early in their programmes. In response to these complaints, the department is requesting a change of number, in order to indicate to students that this course

should be taken late in their program.
