CURRICULUM CHANGE

DEPARTMENT OF BUSINESS ADMINISTRATION

p. 254 BUS. 424-3 Managerial Accounting II
CHANGE OF PREREQUISITE

FROM: BUS. 324-3 (formerly Comm 324-3); 60 credit hours.

TO: BUS. 324-3 (formerly Comm 324-3), BUEC 333-3; 60 credit hours.

Rationale:

The Undergraduate Curriculum Committee of the Department of Business Administration has approved the recommendation received from members of the departmental Accounting group that prerequisites for BUS. 424 include BUEC 333 as well as BUS. 324. Accounting applications of statistical techniques are taught in this course, and a few students begin 424 without the appropriate background.

The areas in question are: Decision-making under uncertainty, using probabilities, expected value, and standard deviation; cost estimation and modeling using linear regression, goodness of fit, correlation, standard error and confidence intervals. Other areas include accounting applications of statistical quality control, and of multiple regression.

It is felt that a clearer specification of the background needed for this course would be accomplished by including BUEC 333 as a prerequisite.
