MEMORANDUM

To SENATE

From SENATE COMMITTEE ON AGENDA AND RULES

Subject SENATE RULE - REPORT OF COMMITTEES

Date OCTOBER 23, 1973

At the May 1973 meeting of Senate, the Senate Committee on Agenda and Rules were instructed to recommend to the October 1973 meeting of Senate rules and procedures for the conduct of the business of Senate; in preparing their recommendation, the Committee were instructed to bear in mind Senate's current and precedent procedural experience, and to examine the desirability of all Senate Committees presenting annual reports to Senate and the appropriate disposition of such reports.

The practice proposed for the submission by committees of Senate of reports on their activities recognizes a felt need by many members of Senate for more precise information on the work of the committees of Senate. It also attempts to clarify the way in which Senate will handle reports from committees.

Certain committees of Senate, such as this committee, effectively report to Senate at every meeting or at times specified in their charge. It is proposed that such committees be not asked to submit annual reports since, by definition, their activities are continuously before Senate. Among such committees are the present committee, the Senate Committee on Undergraduate Studies, the Committee on Honorary Degrees, and the Nominating Committee.

Other standing committees perform duties on behalf of Senate and frequently have delegated powers. It is proposed that these committees be required to report annually to Senate and the proposed rule states how their decisions and use of delegated powers shall be ratified. Such committees include the Senate Library Committee, the Undergraduate Admissions Board, the Appeals Board, the Committee on Non-credit Instruction, and the Committee on Scholarships, Awards and Bursaries.

So-called ad hoc committees normally have in their terms of reference a date on which a report should be submitted.

The new rule also recognizes that Senate may, from time to time, wish to have information on the ongoing work of any committee and provision is made for calling for such reports either on vote of Senate or the instructions of the Chairman of Senate.
