FACULTY OF ARTS

FACULTY OF ARTS GENERAL SECTION

Editorial changes to provide more clarity in stating existing regulations have been included throughout the calendar entry.

P. 65.

The only significant change is on page 65 of the current calendar, item 2 of the upper levels requirements for both the general program and the honors program. The regulation as it is now stated reads as follows:

"At least 15 credit hours must be in upper and/or lower division courses outside the major subject area. *This requirement does not apply in those cases where a student is enrolled in an approved double major or major/minor program.*"

The wording as shown in italics above was meant to make clear to the student that he would not have to complete an additional 15 "outside" hours over and above the required hours for each of the major subjects in a double major program, or in addition to the major and minor requirements if in a major/minor program. This is not being understood by students reading this regulation as presently stated. The proposed change in wording does not alter the regulation, but will hopefully make the application of this rule more easily understood by students who are pursuing a double major or major/minor program. The proposed wording is as follows:

" . . . . . *This requirement is automatically fulfilled when a student completes requirements for an approved double major or major/minor program.*
