

SIMON FRASER UNIVERSITY

S. 313

MEMORANDUM

To SENATE

From Senate Committee on Graduate Studies,
H.M. Evans - Secretary.

Subject Master's Program - Kinesiology

Date December 15, 1969.

The Senate Committee on Graduate Studies considered the recommendation of the Interdisciplinary Committee on Kinesiology (with some change in wording) and at its meeting on December 9, 1969, passed the following motions as recommendations to Senate:-

1. "that the change of degree title from Master of Science (Education) to Master of Science (Kinesiology) for those students taking their graduate work in Kinesiology, be approved".
2. "that this program be identified in a section of the Calendar separate from the Faculties of Arts, Science and Education".

MEMORANDUM

Dr. L. M. Srivastava, Chairman,

Senate Committee on Graduate Studies

Subject: Change from M.Sc. (Education) to
M.Sc. (Kinesiology)

From: B. L. Funt, Chairman

Interdisciplinary Committee on Kinesiology

Date: November 25, 1969

At its meeting of November 20th, the Interdisciplinary Committee on Kinesiology passed the following motion:

The Committee requests the Senate Committee on Graduate Studies to change M.Sc. (Education) to M.Sc. (Kinesiology).

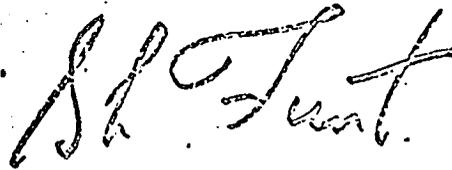

The basis for this request stems from the belief that the M.Sc. (Education) reflects a more professional type program than is currently in effect or envisaged for Kinesiology.

To date, no students have received the degree of M.Sc. (Education) and therefore this may be an appropriate time to institute the change that the Department recommends and that the Committee has approved.

On the other hand, when last discussed in the Faculty of Science some two years ago, there was opposition to the title M.Sc. (Kinesiology). I include this statement for the sake of record only, as it will be argued that the Faculty of Science is not directly involved in the program under the supervision of the Kinesiology Committee.
